Grading Is Being

Rushed on C. N. R.

On an invitation extended to the writer by Dr. J. Brown to accompany him on his trip to the grading camp of the C. N. R. last Sunday, we were able to see the progress being made on this new line of railroad now extending toward Redcliff.

The grading is progressing very favorably and is now about two-thirds completed, from Dickson's farm north-west to within six miles of Tisdale. There are six different grading crews in this territory and the work is being done by the following: The Sandigan camp, which is the nearest to town, is the largest and is well equipped for the work. The country through which the graders are now working is quite rolling and a large part of the work is cuts and fill-work.

It is expected that the strip covered by the doctor and party will be finished by this fall and that work will be commenced on the strip from Dickson's farm to Redcliff.

There is another grading crew working southeast from the strip from Tisdale, which will connect up with the grading already done on this end and it is also expected to finish this fall.

We are unable to state when steel laying will be commenced, but probably not until next spring. At present the farmers along this new road would be able to market their farm products over this new line a year from now, and will also open up a new country for Redcliff's manufactured products.

Well Known 'Cliff

Bachelor Weds

Mr. Henry Jackson, an old timer of the town, and Miss Anna C. Miller, formerly of Medicine Hat, were joined in wedlock last Monday morning at 10 a.m. at St. Patrick's church, Redcliff, by the Rev. Father Fitzgerald.

As the bride has been living here for a short time, but is well and favorably known in Medicine Hat, where she had resided for several years.

Mr. Jackson is an old timer in Redcliff, having resided here for some years, or over half the town was started. He has been employed continuously for that time by the Redcliff Brick & Coal Company and now the company's chief burner.

On several occasions the people of Redcliff have been told that Henry was about to get married but he never heeded them, and again he fooled them many by actually getting married.

Mr. and Mrs. Jackson's first gift to their new home was a heavy welcome back to town Monday night by organizing a Jass band, and giving them an old fashioned farewell.

The newly wedded couple will reside here and it will make their home in the heart of town.

French Deputies

Slow to Ratify.

Paris, Aug. 26.—The result of the first day's debate on the ratification of the peace treaty by the Chamber of Deputies came, optimistic forecasts of prompt ratification to vanish.

Only three speakers in all addressed the chamber; were heard, Deputies Chappelland, Rabier and Poincaré, each of whom spoke more than a hour. The Chamber of Deputies, the treaty will not be ratified before September 6th, and perhaps later, as other speakers will be heard, and it will be necessary to be inscribed on the list as the discussion progresses. The government seemed anxious to hurry the proceedings.

Intipulations on Hungarian affairs and the high cost of living were postponed, at the request of Foreign Minister Pichon and Minister of Provisional Noctules, until the treaty has been ratified. Premier Clemenceau and all the ministers remain on the bench throughout the session.

Attempt to Revive

Party Will Fail.

Mr. Robert Rogers' speech in Winnipeg at the Conservative gathering, the Ottawa Citizen says.

"The attempt to revive the moribund Conservative party is not expected to result in the general elections cannot succeed. A lot of it cannot show results. Mr. Rogers on the working end of the political pole. Stipulation of all verbal campaign, it is in reply the reasonable hope of high tariffs and special privileges."

Town Council

Holds Short Session

The regular meeting of the town council last Monday night proved to be one of the shortest sessions ever held, and very little business was transacted. The mayor occupied the council and Councilors Keats, Weger, Brown, and Alderson were present.

The minutes of the previous meeting were read and accepted. The mayor informed the council that the agreement with Mr. R. W. of the Ross Clay Products Company, re taxes, had been executed and that the note had been delivered.

A bylaw authorizing the mayor and secretary-treasurer to borrow \$10,000 from the Royal Bank was given its several readings and passed.

A motion was duly made and adopted that the town purchase a doghouse on street lamp poles. The motion was adopted unanimously.

Councillor Oakland asked that a strip of sidewalk be laid on Second street, south of the Howard block, to First avenue and the town clerk foreman was authorized to lay the same.

There being no other business the council adjourned at 9 o'clock.

Mrs. Askwith Passes

Away at Vancouver

Word was received here Monday by Miss Palles that her sister, Mrs. J. K. Askwith, formerly of this town but now of Vancouver, had died.

Mrs. Askwith's death was very sudden, as she was well and favorably known here, having resided in Redcliff with her husband for about four years.

Mr. Askwith's Miss Palles many friends in Redcliff were very sorry to hear of her death and all expressed their sincere sympathy.

BAD FIRE AT

ALDERSON--

TWO HURT.

Over-Heated Stove Causes Fire Which Practically Wipes-Out the Village--Loss Estimated at \$75,000.

Word was received in Redcliff last Saturday afternoon that a village of Alderson, 35 miles west of here, was on fire and that there was very little hope of saving any of the buildings in the business section of the town.

The fire broke out at 11 K.M. in the kitchen of the Johnson hotel and was caused by an overheated stove, as the hotel people were preparing the noon-day meal. At the time the fire started there was no one in the kitchen.

The fire was fanned by a strong wind which caused it to spread rapidly. The kitchen was the only part of the hotel to burn but the fire spread to Drummend's hardware and furniture store, Hutchison's general store, Ross's iron and steel store, Mrs. Goshorn's restaurant, the former office of the Alderson News, Hansel's store, McDermid's hall, the office of H. B. Brigham and one private residence.

Six families who were living over the hotel, several of whom were in the kitchen at the time the fire started, were saved. A few smaller buildings to the rear of the business buildings were also destroyed by the flames.

All the firemen were injured except Mr. Hanson. The total loss will be about \$75,000.

Mr. Geo. Steele and Mr. Bert Cole were badly cut by flying glass, as the result of an explosion which took place in the Drummend hardware store.

The village is without fire protection, but a bucket brigade of the villagers did good work and prevented the fire from spreading to other buildings.

The fire leaves Alderson very nearly stripped of business places, and it is expected that many of these burnt out will rebuild shortly.

Under the act passed at the recent session, it was voted Wednesday, it is possible to hold a by-election in less than two months, except in constituencies which contain no village or town (more than one thousand population).

This is the substance of the report made to the government by the office charged with the administration of the Election Act.

It was impossible, therefore, to fix the date which would enable any candidate to take his seat in the House before October. The minister of finance, Sir Henry Drayton, and the minister of agriculture, Dr. S. P. Tisdale, will consequently be unable to appear in the house at the coming session.

Mr. Tisdale says the present session will be held in the house at the coming session.

Mr. W. L. Mackenzie King, leader of the Liberal party.

WE Will Have

Highest Paid Army

Canada is to have the highest paid standing army in the world, according to military headquarters announcement.

The pay of the private soldiers is to be increased from \$1.10 a day to \$3.00, it is stated. This raises the \$3.00 to \$4.00 in the winter and \$4.00 to \$5.00 for a permanent soldier.

He found it practically impossible to give him of good character and physically fit to serve in the army for five years when they can make from \$3.00 to \$10.00 a day in other vocations.

It is not to be expected that the removal of the Prime Minister to be stationed in Winnipeg has resulted in the acquisition of only 14 men.

Other units have 150 men.

Returns After Five

Years Overseas.

John Bradley, who left Redcliff at the outbreak of the Great War to fight in the 5th Battalion, returned to his town last Monday. He served in the army for five years, being discharged last Saturday.

Bradley was in 1915 and served in the hospital for seven months thereafter.

Shortly after he received his first wound report reached town that he had died from his wounds, but some time after this it was found to be untrue, and his return to town this week was a very welcome event to his many friends here.

Aside from the fact the John's is not as stout as he was when he left Redcliff in 1914, so also that his left eye is slightly disfigured, he is looking as natural as ever.

The people of Redcliff are pleased to see him again and wish him every success, which he so richly deserves.

Whist Drive and

Dance Monday Night

The Ladies' Club Improvement Society will give a whist drive and dance Monday night, in Redcliff Hall.

The first part of the evening will be devoted to a whist drive, after which refreshments will be served. The balance of the evening will be devoted to dancing.

As the society is desirous of securing food to provide a good dinner for all those who come, the people should give them their hearty support.

Tickets will be on sale at \$1.00 per couple; extra ladies, 25c.

Another Excuse for

Raising Prices.

Ordered passed by Mayor Winsler, of Windsor, with a United States firm for 200 tons of submarine cable, quoted at \$12,000 a ton, including freight, and expected to be paid for in Canadian money.

Mr. Geo. Steele and Mr. Bert Cole were badly cut by flying glass, as the result of an explosion which took place in the Drummend hardware store.

The village is without fire protection, but a bucket brigade of the villagers did good work and prevented the fire from spreading to other buildings.

The fire leaves Alderson very nearly stripped of business places, and it is expected that many of these burnt out will rebuild shortly.

Popular Redcliff

Young Lady Weds

A wedding was held at the home of Mr. and Mrs. Wm. Gray, a very pretty bride and groom, when their youngest daughter, Kathleen, was joined in solemn wedlock to Mr. D. A. Norris of Medicine Hat. The ceremony was performed by the Rev. R. G. Blundell, vicar of St. Michael's.

The wedding ceremony had been completed a very nice lunch was served, after which the bride and Mrs. Norris took the noon train for Medicine Hat on a trip to the mountain resorts of Banff, Lake Louise, Field and other points.

The groom's gift of the bride was a platinum pendant set with diamonds.

After their return from the honeymoon trip, Mr. and Mrs. Norris will make their home in Medicine Hat.

The Review joins them in friends in congratulations and well wishes.

A Very Enjoyable

Social Evening

A most enjoyable evening was spent by those who were present at the supper and social evening given by the Ladies Auxiliary of G. W. V. A. in the club rooms, on Thursday, Aug. 14th to the returned soldiers in Redcliff.

About 50 guests were present. A very dainty supper had been prepared and was served about 7:30 p.m. After the supper the guests were entertained by a variety of songs, songs and dancing was the order for the rest of the evening. Refreshments were served at 11 p.m. The L. A. to G. W. V. A. had a thank everyone who kindly helped to make the evening such a success; including Mr. Rep. Smith, Mr. Brockford, and the W. A. of the Church of England.

U. S. Taking Steps

To Control Packers

Declaring that the step is necessary to control the business of the five largest packing companies, the federal trade commission, in a special report to President Wilson recommends that

of refrigerators and cars and used for transportation of meat animals be declared a government monopoly. It recommends further that the property concerned, including buildings and other facilities, as well as the cars be acquired by the government and railroads thereafter, be placed under government operation.

The big packers, the report says, now own 90 per cent. of all the refrigeration equipment in the country, and the large grown up from their control of refrigerator car lines in conjunction with various pools," he report says, in part.

Strikes in June

Report Given on

Thirty-two strikes, involving 37,700 employees, were reported as having commenced during June. There were in existence at some time or other during the month 50 strikes, involving about 50,000 work people. The total time loss on account of industrial disputes was estimated at 1,445,000 working days, as compared with 893,816 in the previous month, and 44,941 in June, 1918. The time loss caused by the 32 strikes which began in June was 292,374 working days, while a loss of 1,152,626 is charged to the 48 strikes that commenced prior to June.

Termination of the dispute was reported in the middle of the month in the case of 23 of them which commenced prior to June. Fourteen of the disputes commencing during June terminated during the month, leaving the following 17 strikes, affecting 23,751 work people, on record June 30: loggers; coal miners; District 18 miners; Eastland; poultry workers; St. John's; gun; construction employees; Princeton; carpenters; Sanitary; hotel; Montreal; Rymphathic strikes; Vancouver; heavy bonded employees; Montreal; textile workers and bakers; Montreal; street cleaners; Toronto; longshoremen; Victoria; seamen; Vancouver; and Victoria; barbers; Kingston, and glass workers; Toronto.

Canadian Soldiers

Nearly All Home

It is difficult to state how far home it will take to bring home the balance of the great detachments of soldiers now in England. Latest reports received at the militia department place the number of men to be brought home at about 10,000. This number may have been decreased by sailings taking place during the past few days.

The movement of these men is somewhat hastened by the fact that most of them have dependents, and that accommodation on boats has to be provided for women and children. If boats are available the remainder of the men will be brought home in a comparatively short time.

Last Tuesday Sherbrooke was en route in honor of General Sir Arthur Currie, K.C.B., C.M.G., commander-in-chief of the Canadian army in France.

PARTY RE-ORGANIZATION

Hon. Robert Rogers is again busy trying to re-organize the Conservative party. With the organization of a Farmers party, a Labor party and a permanent Union party and with the Liberals and Conservatives still doing business the people will have a hard time to decide which of five parties will be most likely to give the country the best service.

Both the Liberals and Conservatives have been tried on several occasions and there seems to be very little difference in their governmental policies after they get into power. They will adopt a party platform but when they get into power them seem to forget all about it.

The present Union government was placed in power to carry on the war and while it has been fairly successful in this one particular, there seems to be general dissatisfaction with its re-construction policy.

While the Review has always fought shy of party politics we believe that any party that will choose a strong leader who will insist that the party he represents shall carry out the platform on which it went to the people on, will have the hearty support of a large majority of the people, providing that platform conforms to the original ideas of the founders of the Canadian Confederation.

What Canada needs today is a leader of the calibre of Lloyd George and Woodrow Wilson.

GOOD WORK.

The United States government is certainly going after the profits in no uncertain manner. The Chicago packers have had the hand-writing on the wall and have announced that the price of pork will drop to \$15.00 a hundred in the next few days. A merchant was tried and convicted of charging 16 cents a pound for sugar when it should have been sold for 11 cents or 11 1/2 cents. Now several government stores will be opened in different parts of the country to dispose of the surplus army supplies at very reasonable prices.

This will have a big effect in reducing the cost of living and will have a tendency of making the people more contented with their lot.

It is earnestly hoped that the Canadian Board of Commerce will soon get down to business and compel the Canadian producers and food hoarders to cease bleeding the people. This can be done if the board takes a hold of the matter without fear or favor.

TOWN COMMISSIONER

Several cities throughout Canada are now being run by a commission or commissioner and the results have proven very satisfactory. We believe this system could be extended to the towns with beneficial results.

This system does not mean that the mayor or council should be done away with, but that this commissioner should have charge of the business end of town, such as collecting the taxes and making the necessary purchases for the town. He could also make up the yearly budget for each department of the town and

submit them to the council for their approval.

While the town and all other municipalities need a business man at its head, one whose sole business is to look after affairs of the town. We cannot expect the members of the council to neglect their own private affairs to look after the affairs of the town, and that is the reason that so few men of business ability will accept a position on the council.

This commissioner should have the power to enforce the provincial town act and Provincial health act. He should also have the power to sell all lands within the town or school district that have been forfeited for non-payment of taxes, either by public or private sale.

Most of the towns and cities of Western Canada have got to drop some drastic means to weather the financial difficulties and the sooner some action is taken the better for all concerned.

WHO WON THE WAR?

(From the London Daily Mail)

The war has gone down by the history of France, who gained time to prepare, whose armies were first in the fight, and whose general was chosen for the supreme command by all the Allies by the devotion of a man who was ready to sacrifice everything, but in the end it was Italy, who in one of the darkest hours came to our aid by the immense efforts of the United States, the breaking of the Hindenburg line, and the Argonne was such laurels last year. It has been won by the patience, tenacity, and faith of the British people and of the splendid soldiers from home and the Dominions, whom they sent into the field. We chose, when the hour of decision came, to risk all we had for freedom. "We must be free or die." And we fought the very hardest, spending no sacrifice. Our material losses are gigantic—8,000,000 tons of shipping and \$8,000,000,000 worth of goods. We sent into the field on land 8,654,000 men and as sea 700,000 in the Navy and Mr. Robert Marne, our casuals on land in the Hindenburg alone reached 99,000 killed, and at sea 38,000—terrible figures which in these hours of triumph should be in every mind.

Britain's Need

Is Opportunity

For Canada

A glance at the European markets of a few days will help us to appreciate the problem that lies before us. At that time Britain was the heaviest European importer of eggs, and many a close second in eggs was the biggest importer of poultry, ports came from Russia, the balance over 50 per cent of British egg imports were fifty other countries.

Many changes in trade movements have occurred during the war. The Canadian west has ceased to import eggs and is now a producer. For a dozen years Canada's export of eggs to Britain had been dwindling while she catered to this home market, and eggs came east and three years back in 1915, over two hundred carloads of eggs came from the west. Canada is entering the export trade and this year's indications are for a large increase over the amount shipped in 1918, as stated in an article on egg and poultry market conditions in Europe, by W. Brown, Chief of Poultry Division, Department of Agriculture, in the Agricultural Gazette.

Britain is still the biggest egg importer. Her present lack in Canada's opportunity, and her need is great. In spite of the fact that Canada's egg production has increased up her exports to the United Kingdom during the war was amounted to only 1 1/2 per cent of the country's requirements. Last year Britain was short nearly 170,000 tons of shell eggs.

Western Rye Grass
Makes Good Hay

One of the biggest problems confronting the farmers on the open prairie in the dry farm regions is that of providing hay for their horses and other live stock. In many districts the greater part of the winter has been broken up or used for poultry and farmers are anxiously enquiring for some grass that will provide the in with sufficient hay for their requirements. No grass has been found that will give good crops for a lengthy period of years and for this reason it is advisable to consider establishing some system of crop rotation and include in the rotation some grass for hay and if necessary for pasture. An Experimental Farm note is said as follows:—

Out of all the grasses tested on the Scott Experimental Station Western Rye Grass has proven to be one of the hardest, most drought resistant and most easily eradicated. From the stand point of yield it is at the top of the list, averaging over two tons per acre for the past three years. On the fields the plants were lighter and in some seasons been as low as half a ton per acre and up to one and three quarters. Nevertheless it has been found that Western Rye Grass grown for hay in the crop rotation has shown some profit and in addition, by taking up Western Rye Grass has cost less per acre than has the ordinary summer-fallow. This is due to the fact that the plants are so dense and the weeds in the field are so few that what grows after summer-fallowing the soil has given greater profit per acre than when there was grown on the ordinary summer-fallow.

In seedling down it has been found that an increased yield can be secured by the first crop by sowing alone, but the second crop is dependent on the amount of moisture and not in the breaking of the Hindenburg line. Summer-fallow land has given heavier yields than when sown after a grain crop but this difference is not nearly as great as would be expected. When manure has been sown in a quarter of an acre and in a quarter of an acre where the grass has been sown on fallow land.

Judging from the various experiments with this grass High Yielding sowing from 10 to 12 pounds of seed per acre is the most profitable. Mixing with rye grass will give better results than sowing alone. The present advanced rather than increased the yields.

Britain's Need

Is Opportunity

For Canada

A glance at the European markets of a few days will help us to appreciate the problem that lies before us. At that time Britain was the heaviest European importer of eggs, and many a close second in eggs was the biggest importer of poultry, ports came from Russia, the balance over 50 per cent of British egg imports were fifty other countries.

Many changes in trade movements have occurred during the war. The Canadian west has ceased to import eggs and is now a producer. For a dozen years Canada's export of eggs to Britain had been dwindling while she catered to this home market, and eggs came east and three years back in 1915, over two hundred carloads of eggs came from the west. Canada is entering the export trade and this year's indications are for a large increase over the amount shipped in 1918, as stated in an article on egg and poultry market conditions in Europe, by W. Brown, Chief of Poultry Division, Department of Agriculture, in the Agricultural Gazette.

Britain is still the biggest egg importer. Her present lack in Canada's opportunity, and her need is great. In spite of the fact that Canada's egg production has increased up her exports to the United Kingdom during the war was amounted to only 1 1/2 per cent of the country's requirements. Last year Britain was short nearly 170,000 tons of shell eggs.

main of these costs. The situation was such. The high prices of eggs in January were lower in February and March. Space was still unavailable for the storage of eggs, and the production for the earliest opportunity of shipping. Through representatives from the Department of Agriculture, and the High Commissioner's office in London, space was ultimately procured and we have shipped nearly 1,000,000 pounds of dried poultry stock to the British markets. The United States are now making shipments as well.

U. S. Government

Will Open Stores

Further steps to bring down soaring prices were taken by the U. S. government, the war department announcing plans for opening in September 25 in a number of cities through which surplus household commodities and clothing will be made available to consumers throughout the country.

Meanwhile, congressional committees continue a consideration of legislation designed to reduce the high cost of living. This included amendments to the food control act to punish profiteering and hoarding, and to regulate food storage and appropriations for the federal trade commission to investigate stocks and give the information to the public.

Through the retail stores to be opened by the war department the people's surplus stocks of such articles as, shirts, raincoats, blankets, gloves, tobacco, soap and other household commodities will be sold. Consumers in the large cities where the stores will be opened will be able to purchase over the counter, but the purchases will be made by the government's committees through the purchase post.

Price lists are being prepared and these will be furnished to all post offices for the convenience of the public. While no announcement has yet been made, it is expected that the prices, like those of the foodstuffs now being disposed of, will be considerably below market.

Carnegie Makes

Many Bequests

Having given away more than \$55,000,000 during his life time, Mr. Andrew Carnegie died leaving a fortune of some \$25,000,000 and \$30,000,000 according to his will, which was filed for probate here today. It was Mr. Carnegie's repeated desire to die a poor man.

The will disposes of \$55,000,000 to public and charitable institutions and leaves annuities of approximately \$300,000 to friends and relatives, including yearly grants of \$10,000 each to Premier Lloyd, George of Great Britain, and former President Roosevelt and Mrs. Thomas J. P. and \$5,000 each to Mrs. Theodore Roosevelt, widow of former president. Mrs. Carnegie, his widow, his daughter Margaret (Mrs. Roosevelt Miller), were provided for during his life time. This is set forth in a clause of the will which reads:

Having now a good provision for my wife beyond her needs, it is my aim to enable her to provide for our beloved daughter Margaret, and being unable to judge at present of the provision for our daughter will best promote her happiness, I leave to her mother the duty of providing for her as her mother deems best. A mother's love will be the best guide.

Big Drop in

Pork Now Due

Chicago, Aug. 28.—A fall of hog prices to \$15 per hundredweight in three days was the forecast made by representatives of the big packing companies at the stockyards today, when a resumption of trading showed the case of Wednesday's market still prevalent. Hog's tail at yesterday's close at \$17, a drop of \$1.50 in one day, were offered today at \$16, with a few change hands. The bulk of the market at the opening of the market was around \$17 compared with \$22.65 early this month.

Goes Back to

His First Love

Another occupant for the parliamentary No Man's Land—the cross benches—has come to light in the announcement made by J. H. Munro, member for West Peterborough, who will leave the government benches with the opening of the session on Monday. In a statement Mr. Munro says he was elected as an Unionist in the period of the war, and believing that period had ended, "I will not betray those Liberals who trusted me" by continuing the pretence of Unionism.

The Redcliff Review. Second Street

NEW TIME TABLE

FOR C. P. R. TRAINS.
The following is the new schedule of the C. P. R. which goes into effect on June 1st, giving a list of the time trains pass through here after that date:

GOING WEST.

No. 3 leaves Redcliff 1:30 p.m.

No. 13 leaves Redcliff 10:00 p.m.

GOING EAST.

No. 4 leaves Redcliff 8:30 p.m.

No. 14 (flag) leaves Redcliff 4:40 a.m.

This is railroad time, which means that anyone wishing to take a train should be at the depot one hour earlier.

ITEMS OF LOCAL INTEREST

Shack, 162nd, price \$50.00. Apply Dominion Glass Company.

Harold Allen spent Monday and Tuesday at the Calgary stadium. He returned on Wednesday.

As the "Printer's Devil" will also want on a vacation this week, we are a few hours late with this week's review.

Dr. Shearer has returned to town after his two weeks holiday and will occupy his own pupils at his services next Sunday.

The infant son of Mr. and Mrs. John Haverkamp passed away last Tuesday morning. The child, who was only three weeks old, has never been well.

A general meeting of the Ladies Auxiliary of the G.W. V. will be held in the club rooms on Wednesday next, Sept. 3rd, at 8 p.m.

Mr. R. S. Hodge spent several days this week in Calgary, and showed the antics of his bronchos and broncho busters.

FOR SALE—A four-room house and two lots in block 6. Lots all fenced and house in good condition. Good bargain for immediate sale. Apply to Mrs. Leach, 2nd street.

Miss Cornsack and her niece Miss Marjorie Dunnett left Tuesday night for a few days trip through the Okanagan Valley in British Columbia.

The teaching staff of the public school has been completed but the "Barrister" was unable to leave the town of the other two teachers who have been engaged.

C. D. Scott, local manager of the Atlas Lumber Company here, returned from Calgary, where he had been attending the Biennale. He reports that it is some stamper.

FOUND—A lady's wrist watch. Owner can have same by proving property and paying for this ad. Apply at Mr. Harrington, rear Northwest Grocery.

Anyone intending going out duck hunting next Monday should call on Mr. Hatcher at the Review office not later than 3 p.m. Saturday and take out a license.

The Dominion Glass Company's plant here is now ready to start up in full operation next Tuesday morning. The furnaces have been repaired and a general overhauling has been given the plant.

J. Tarrant, who returned from overseas late last spring, and who is now employed by the C.P.R. for painting and decorating that company's buildings north and west of here, was in town for the week-end. Joe reports that crews north of Calgary are excellent. He returned to resume his labor late Monday night.

1 Million Diamond Disc Photographs in Mahogany case, list price, \$180; also gold plated media attachments, value \$10; and about 50 double side selected records; the lot for \$140, a real snap; owner leaving town. Apply Mrs. H. Hargrave, 1st Street, Redcliff.

Mr. and Mrs. Estle Watson and Mrs. Esther Hollinger of Redcliff, and Mr. C. H. Woods and Miss Pearl Lamont of Medicine Hat are leaving next Monday for Kelowna, B.C., and other western points.

The Redcliff Hotel will open its dining room again Saturday with the wife. This should be welcome news to the people of Redcliff and the Review hopes to see the hotel well patronized.

Dr. H. W. Wall, formerly of Redcliff, but now at Dundee, Alberta, arrived in town today. The doctor says that the Donald district has a very good crop this year and that the people in that district are feeling optimistic.

Mr. and Mrs. Edward Short returned to town today from the east. Mrs. Short went overseas with the 15th Battalion and returned to this country through the United States. She has been living with her father in Toronto and returned during Mr. Short's absence.

The public school building and the two lots in the Red block are all ready for the spring of school next Tuesday. The condition and the gentlemen who control the Red block have been busy this week getting things in first-class shape.

Russian agitators are interested in supplying funds for a propaganda to stir race antagonism in the United States, according to information now in the hands of the department of justice.

To Take Vote on

Question of Strike

President Wilson today won his appeal to railway shippers to postpone striking. Union heads announced Tuesday that a referendum on the president's proposition of four cents an hour wage increase will be taken among the union membership at once. This is to act on president request.

Officials at both the railway adjustment and the White House were hopeful that the president's appeal for a \$100 in industrial wages and his warning that a strike now might be disastrous, will result in the new vote turning the tide against the strike vote among the shop workers, as evidenced by a previous ballot, B. M. Jewell, president of the railway employees department, American Federation of Labor, announced plans for the new vote after a long conference with heads of six shippers' unions today.

Favors Restricting Japanese Invasion

The campaign against further invasion of their west by Japanese, an anti-Japanese league has been formed in Seattle. Attorney John J. Sullivan, national vice-president of the American legion, was chosen chairman and Frank E. Kennedy, secretary-treasurer. It is planned to raise a fund of \$12,000.

At the meeting Edward Clifford, representing the Veterans of Foreign Wars, declared that Japanese were serious rivals of returning soldiers for positions in civil life.

Drastus valiant, former editor of the Post-Intelligencer, is a supporter of the league. He is strongly in favor of restricting Japanese immigration.

Ten million dollars worth of silk carried in four special trains left Vancouver for the east last Tuesday afternoon. The shipment was brought from the Orient on the Empress of Asia.
